

SMALL TOWERS NEED TREATMENT TOO!

Even small towers are susceptible to *scaling, corrosion, and biological fouling.*

Even a 1/16" scale deposit can increase energy consumption and reduce efficiency by 5-10% or more!

Biological growth can lead to corrosion, blockage, and increase health hazards.

Let **M.I.S. of America** treat your small cooling towers throughout the Cooling Season with a scale and corrosion inhibitor package that includes a **Legionella Management Program!**

- For towers up to 50 tons and 500 gallon sump (6 month supply):

6 DTEA II SRSC Tablets and 6 Sump Buddies and 6 service calls
\$550.00

- For Towers up to 90 tons and 1000 gallon sump (6 month supply):

12 DTEA II SRSC Tablets and 9 Sump Buddies and 6 service calls
\$800.00
